COURAGE

Courage doesn't always roar. Sometimes courage is the quiet voice at the end of the day saying "I will try again tomorrow"

What Is COURAGE?

Courage is your own ability to overcome your fears. It lets you move past the anxiety or nervousness that you feel and it allows you to do great things. People that are courageous are the ones you see daring to try something new. Everyone has fears, but your potential to manifest courage is the deciding factor in the paths you choose to walk.

Visualize courage as light inside you, and fear as darkness. Courage is not the absence of darkness. Courage is the light that shines through it. Let your light shine.
